ONIGAA

INTERNATIONAL

Premium Dehydrated Garlic Flakes Manufacturer & Exporter from India

Onigaa International is a trusted manufacturer and exporter of premium-quality dehydrated garlic and onion products based in Gujarat, India. We specialize in producing export-grade dehydrated garlic flakes that meet the quality requirements of food manufacturers, wholesalers, importers, distributors, and commercial kitchens across the globe.

Using carefully selected fresh garlic and advanced dehydration techniques, we ensure that our products retain their natural flavor, aroma, texture, and nutritional value while offering an extended shelf life.

What Are Dehydrated Garlic Flakes?

Dehydrated Garlic Flakes are produced by drying fresh garlic cloves under controlled conditions to remove moisture while preserving their natural characteristics. These flakes are widely used in the food industry because they provide the authentic taste of garlic with the convenience of long-term storage.

Our dehydrated garlic flakes are suitable for both domestic and international food manufacturers looking for reliable, high-quality ingredients.

Product Features
